

# Module #7

## Mixing Down A Great Episode

Approximate Time: 1-2 hours

### ❖ Podcast Editing Process Flow:

1. Record podcast on Skype using Ecamm recorder
2. Use Split Movie Tracks app to split the .mov file saved from Ecamm recorder into 2 files (one for your voice and one for their voice)
3. Use Convert To MP3 to convert both tracks from .mov files into .mp3 files
4. Upload mp3 files into GarageBand, Audacity or Adobe Audition
5. Edit the episode, add your intros and outros...then export the file as an .mp3
6. Upload file into Auphonic and download when finished
7. Tag file using ID3 editor
8. Upload file into Libsyn
